### **For Immediate Release**

#### **Newport Oregon Fireworks Display will be on July 4th**

To help dispel some mistaken information that was sent out on social media, the City of Newport Oregon would like to confirm that our annual Fireworks Display will be held today, July 4<sup>th</sup> at 10 pm.

Apparently, the confusion began when the City of Newport Rhode Island sent out a press release announcing their July 4<sup>th</sup> Fireworks Display was being moved to July 5<sup>th</sup>. This led to posts on social media announcing our fireworks display had been moved to Fifth.

The Fireworks are being set off over Yaquina Bay from the west end of the Port of Newport's International Terminals. The City would like to thank the Port of Newport for their generous use of their facilities. The Fireworks can be viewed anywhere within the general vicinity of Yaquina Bay.
